Dinan Way Extension

Dear Resident,

We are writing to inform you with information on the Dinan Way Road project and upcoming traffic measures we are putting place towards the completion of the project.

We are pleased to announce that we are expecting to open a new section of the Dinan Way from the 9th September 2026, this is the new link road between the A376 and Hulham Road.

Moving towards the completion of the project, we are putting in a series of traffic measures. These traffic measures, unless stated otherwise, will be in place between 9th September until the 4th December 2026. These measures will be in place 24/7.

The following traffic measures will apply

Road Closure:

- Road closure of the A376 from Courtlands Cross to the new A376 Dinan way Roundabout will be closed.
- Footway closure from 24th August – 4th December on the A376 from Pitts farm Junction to the Courtlands Lane/Summer Lane Junction– Taxi service to be provided from Saddlers Inn carpark to Ascona Courtlands service station.
- Road closure from Courtlands Cross to The Saddlers. This is to facilitate surfacing of the road, to tie the new link road into the existing A376 on the northside. Road Closure 7th – 9th September 2026 (nights 19:00 – 06:00).
- We are also aware that National Grid have a closure forecast from 26th August to 16th September on Pound Lane (at the Hulham Road Junction). This is due to emergency works and separate to those planned by Devon County Council.

Diversion Measures:

- Traffic will be diverted via Dinan Way link road, Hulham Road roundabout and then along Hulham Road where it meets the A376 again.
- There will be no through traffic from Pound Lane onto Hulham Road.

One-Way Measures:

- Featherbed Lane will become one way only with traffic flowing in the eastbound direction towards Hulham Rd.

- Iona Avenue will be become one way only with traffic flowing in the westbound direction towards the A376.

Parking Restrictions

- No parking will be allowed on Hulham Road outside “Hulham Road Stores”.
- No parking will be allowed on Hulham Road at the junction with Beechway.
- No parking will be allowed between Courtlands Cross Junction on the A376 down to Rivermead Avenue. This is due to work on the footway widening works and is separate to the Dinan Way extension Project. This will be from 9th September to 4th December.

HGV / Wide load Diversion

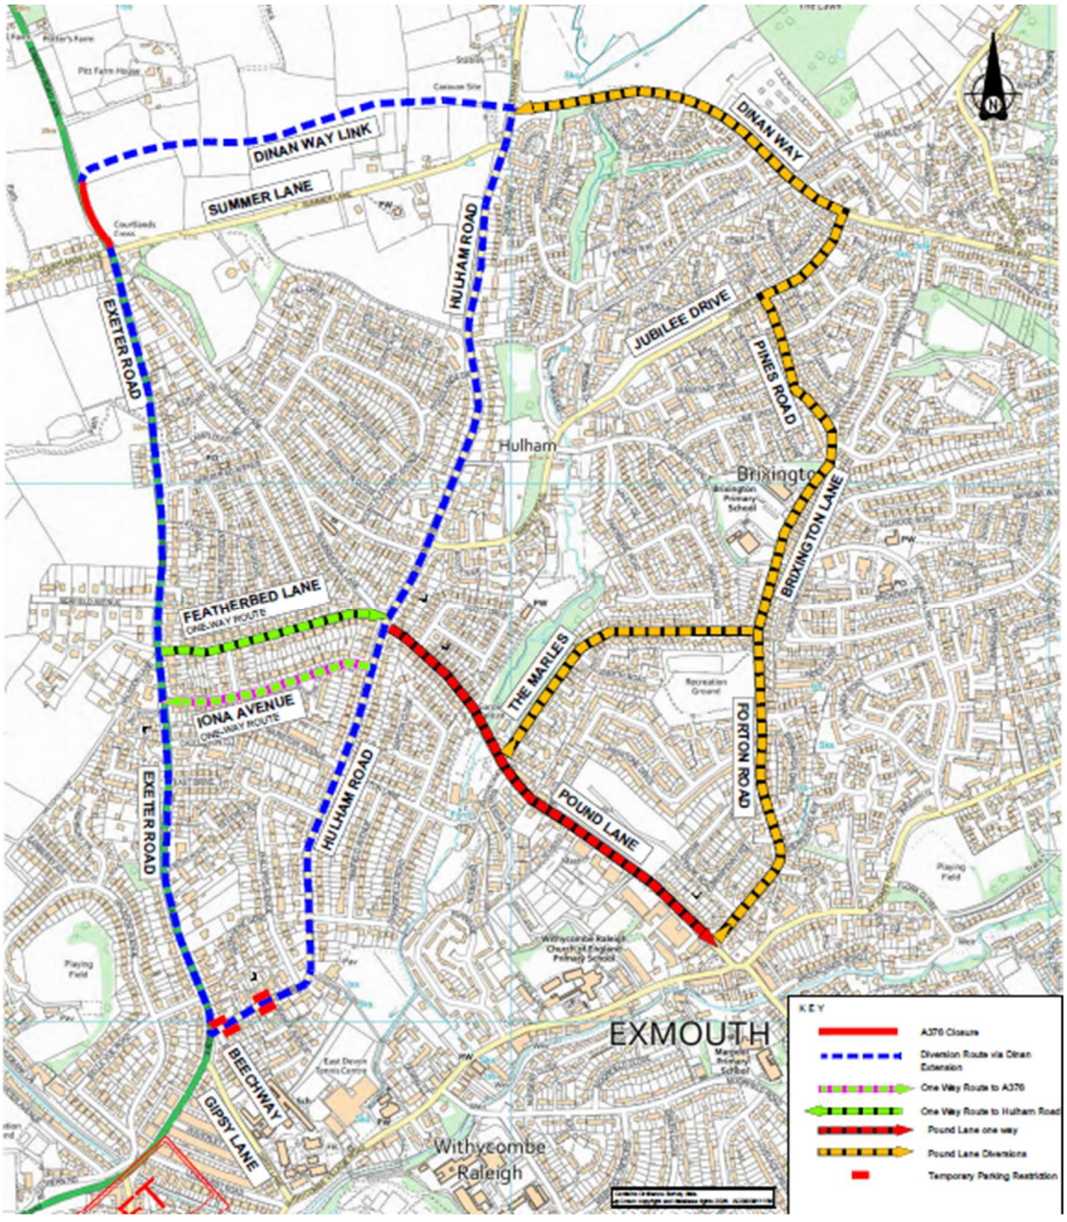

- An assigned diversion route has been devised for HGV / Wide load vehicles that will be via the A3052, B3180 and B3179 – this will be clearly signposted on all traffic routes.

Public Transport – Bus Route Impact

- Bus routes 57 and 96 will be temporarily suspended for the duration of the works between 9th September to 4th December. This will be from the Hulham Road junction up to the A376 closure.
- An alternative route will be put in place for these routes via Hulham Road and the Dinan Way new extension link road. The bus stops for the 57 and 96 will be transferred to be on Hulham road, at the pre-existing bus stops on this road.

Please be advised that all businesses will remain open as usual, with normal trading hours and services continuing throughout the duration of the works.

For further information please see the below diagram of the traffic measures:

We understand that this may be disruptive, and while some noise and traffic is unfortunately unavoidable, we will do our utmost to minimise disturbance. We sincerely apologise for any inconvenience this may cause and appreciate your patience and understanding.
